Nebula Teknoloji A.Ş.

Investor Update — Q3 2026

Quarterly letter to the shareholders of Nebula Teknoloji A.Ş.

Document No	CEO-IR-2026-Q3
From	Mehmet Yılmaz, CEO and Chairman of the Board
Prepared with	Ali Vural (Finance), Zeynep Şahin (CEO Office)
Reporting period	1 July – 30 September 2026
Issue Date	2026-10-22
Classification	Confidential — shareholders only

Dear shareholders,

Q3 2026 was the quarter in which two long-running bets went live: Nebula Assist, our AI assistant inside NebulaCRM, reached general availability on 15 September 2026 with release v3.4, and our EU region FRA-1 in Frankfurt opened on 1 July 2026, giving our German-speaking customers in-region hosting for the first time. Commercially it was our strongest quarter to date, and for the third quarter in a row we were EBITDA positive on a reported basis.

All figures in this letter are unaudited management numbers. Turkish lira amounts are translated at the Q3 average rate of 41.3 TRY/USD unless stated otherwise; balance sheet items use the 30 September 2026 closing rate of 41.4 TRY/USD.

1. Q3 2026 at a glance

Metric	Q2 2026	Q3 2026	Change
ARR (end of period)	$20.3M	$22.4M	+10% QoQ
Revenue (quarter)	$4.4M	$4.8M	+9% QoQ
Net revenue retention	115%	118%	+3 pts
Gross margin	72.4%	73.6%	+1.2 pts
EBITDA margin	12.1%	14.0%	+1.9 pts
Paying customers	1,326	1,412	+86
Customers in Germany	28	37	+9
Headcount	236	247	+11
Cash (end of period)	$14.1M	$14.8M	+$0.7M

Table 1. Key performance indicators. ARR at 31 December 2025 was $16.9M, so ARR has grown 41% year over year.

In lira terms, Q3 revenue was TRY 198.4M and nine-month revenue TRY 536.9M, which is 99.2% of the nine-month budget. Cash on hand at quarter end was TRY 612.5M; we have not drawn on the Series B proceeds for operating expenses since February 2026.

2. Highlights

Nebula Assist is generally available

Nebula Assist left beta on 15 September 2026 after a ten-week pilot with 40 customers. It is included in the Kurumsal and Kurumsal Plus plans and sold as an add-on on Profesyonel. In the first two weeks after GA, 173 tenants switched it on and 31 Profesyonel customers bought the add-on. Every answer cites the CRM records it used and customer data is never used for model training — a point that has mattered in every enterprise security review so far.

International: DACH is working

The Berlin office (Nebula Technology GmbH) opened on 2 February 2026 and now has 10 employees. Germany ended the quarter with 37 paying customers, up from 28 at the end of Q2; nine of the 112 new logos we signed in Q3 were German. Since FRA-1 opened, every new DACH customer has chosen EU hosting, and the self-service migration tool shipped in v3.4 lets existing tenants move with at most 30 minutes of read-only time.

Sales execution

- New ARR of $2.1M in Q3 against a quota of $2.04M (103% attainment).
- 112 new logos; win rate improved to 27% from 24% in Q2.
- Average sales cycle of 64 days; qualified pipeline of $9.8M entering Q4.
- Largest deal: Lodos Lojistik A.Ş. expanded by 1,100 seats to 3,500 seats on a three-year Kurumsal Plus agreement.

3. Lowlights and what we are doing about them

Reliability. The April database outage (INC-2026-0417, 167 minutes, 286 customer accounts affected) still shapes our year. We paid TRY 1.24M in service credits to 61 Kurumsal and Kurumsal Plus customers, booked against Q2 revenue. All six postmortem actions except the quarterly failover game day are complete; at the board's request, the Audit Committee now reviews failover test results every quarter.

Customer sentiment. NPS slipped from 46 in Q2 to 44 in Q3. The single largest driver was report export performance on large accounts. The export pipeline was rebuilt in v3.4 and now exports one million rows in under 90 seconds; we expect to see the effect in the Q4 survey.

Hiring. We ended Q3 at 247 people against a plan of 252, mostly due to slower senior engineering hiring in Ankara. We still expect to finish the year close to the budgeted 260.

4. Outlook for Q4 2026

- Full-year 2026 revenue forecast: TRY 738.5M against a budget of TRY 742.0M.
- Exit ARR target for 2026: $25.0M, unchanged from the strategic plan.
- NebulaCRM v3.5 is scheduled for 8 December 2026, ahead of the year-end release freeze.
- 2027 budget to be presented at the board meeting on 10 December 2026, prepared under a 45% revenue growth framework.

5. Governance

At the board meeting of 24 September 2026 the board approved a TRY 3.5M market research budget for a possible Dubai office, expanded the employee stock option pool from 8% to 10% of fully diluted shares, and appointed Atlas Kuzey Bağımsız Denetim A.Ş. as external auditor for the 2026 financial year. Minutes are available to shareholders on request from the CEO Office.

6. How you can help

- Introductions to logistics and insurance companies in Germany and Austria with 200 or more CRM users.
- Referrals for a Head of Sales DACH based in Berlin.
- Feedback on our Gulf market thesis before the Dubai research kicks off in January 2027.

Our next update will follow the year-end close, in the last week of January 2027. As always, thank you for your support — questions are welcome at investors@nebulacrm.example.

Mehmet Yılmaz, CEO
